

FINANCIAL INFORMATION

Tuition

Tuition, fees and most expenses except textbooks have been consolidated into a flat rate, enabling parents to plan for their student's educational expenses more easily. The Flat Rate charge is based on present costs for services and commodities. Due to the prevailing uncertainty of economic conditions, the Montana Conference K-12 Board of Education, at any time during the school term, reserves the right to adjust all charges without notice as it deems necessary.

Note: Activities and classes that take place off campus or beyond the normal curriculum will be charged to the student on a cost basis.
